We are offering

Two Postdoctoral Positions in molecular biology/evolutionary immunology (m/f/d)

The positions will be available in the Boehm department at the Max Planck Institute of Immunobiology and Epigenetics in Freiburg, Germany (http://www.ie-freiburg.mpg.de/boehm). The Boehm group addresses a number of cutting-edge research questions related to the development and evolution of the vertebrate immune system.

The ideal candidates are experienced both in bioinformatic analyses of transcriptome and genome data, and in general immunological techniques and animal handling, including tissue transplantation.

The positions are open immediately and initially funded for two years.

Your opportunities:

Your work will focus on the characterization of immune systems in non-model organisms. You will work in close collaboration with the group’s scientists, who address several aspects of the lamprey immune system. You will have access to the core facilities of the institute, including an excellent sequencing facility.

Your tasks:

Your qualifications:

Applicants should possess an academic degree plus a Ph.D. degree in biochemistry, molecular biology or a related field and a strong publication record. We are looking for a dedicated and motivated team player with strong communication skills and good command of the English language.

We offer:

Based within a region that connects Germany, France and Switzerland, our institute hosts a vibrant community of international researchers, state-of-the-art facilities, and modern office spaces. A childcare facility is directly attached to the institute. At the heart of the Black Forest, Freiburg offers a family-friendly atmosphere and excellent recreational possibilities for cultural and outdoor activities. Salaries will be based on previous experience according to the German pay scale for civil service (TVöD) including health insurance and other social benefits.

Application deadline:

Have we sparked your interest? Please submit your complete application, including a 1 page motivation summary, CV and contact details of referees via our online application portal at http://www.ie-freiburg.mpg.de until October 15th, 2020.

For informal inquiries please contact: boehm@ie-freiburg.mpg.de
