Virtual Seminar

1:45 Check-In
2:00 Welcome

Classics 1

2:15 Thomas Krausgruber
Structural cells are key regulators of organ-specific immune responses

2:30 Grassmann Simon
Early emergence of T central memory precursor programs clonal dominance during chronic viral infection

2:45 Tatjana Sauerer
Preclinical evaluation of a combination of checkpoint blockade and dendritic cell vaccination against Merkel cell carcinoma

Classics 2

4:15 Themis Alissafi
Mitochondrial oxidative damage underlies regulatory T cell defects in autoimmunity

4:30 Sabrina Bianca Bennstein
Deep characterization and functional analyses of neonatal and peripheral innate lymphoid cells (ILC) subsets

4:45 Ana Santos Almeida
Fibre-associated Lachnospiraceae reduce colon tumorigenesis by modulation of the tumour-immune microenvironment

Out of the Box

3:15 Lisa Ehlers
An Antibody gone astray

3:30 Marina Ramírez Galera
The importance of null results

3:45 Lloyd Montgomery
Pint Of Science

Key Note

5:15 Kat Arney
Telling stories about sciences

Voting For Best Talks!

5:15 Awards Farewell & Get-Together
